

Digital Apprenticeship Day with LOTI and AWS

Welcome from AWS and LOTI

Agenda

- **Introduction to LOTI**
- **Local Government and AWS**
- **Innovation at AWS**
- **Challenges** set for each team
- **Presentations** and feedback
- **Apprenticeship** panel

Introduction to LOTI

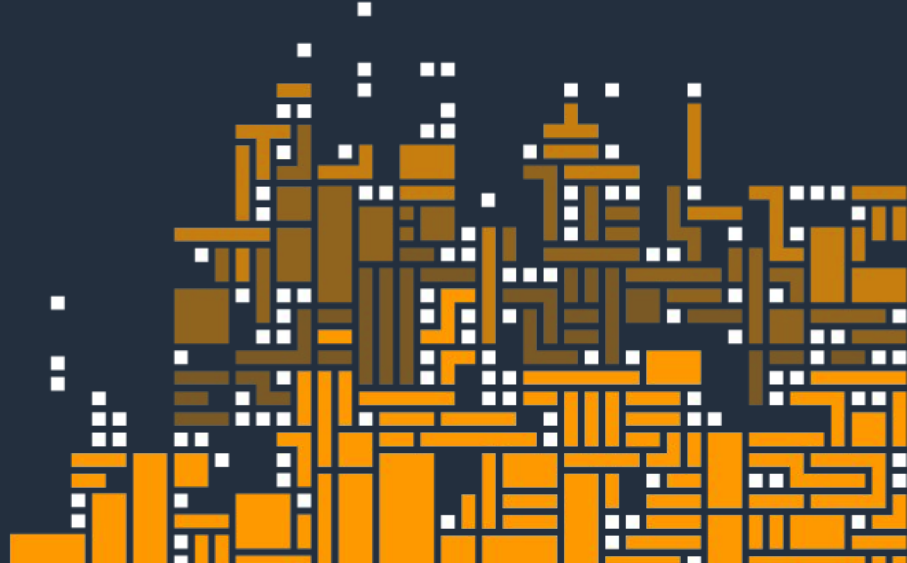

Onyeka Onyekwelu, LOTI Strategic
Engagement Manager

Local Government and AWS

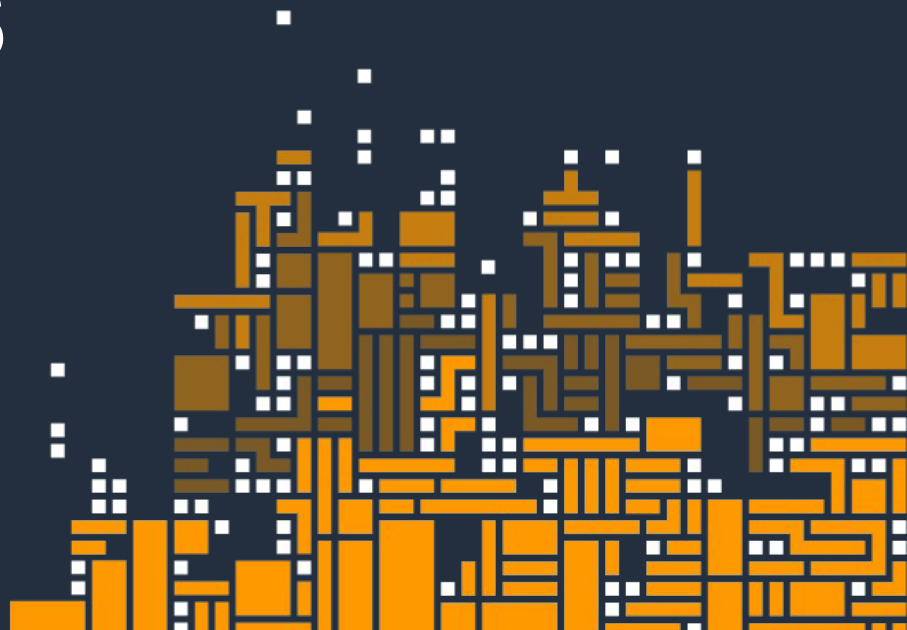

Will Orme, AWS Local Government

Innovation at AWS

Jude Sheeran, Head of Cloud Innovation

Challenge Tasks

Tasks

- **Task 1:** Smarter council – enabling hybrid working
- **Task 2:** Supporting vulnerable residents – test & trace
- **Task 3:** Promoting inclusion – digital divide in London

Task 1: Smarter Councils

Your borough wants to transition from 100% office based working to majority home/mobile working, allowing for officers who choose to continue working remotely to do so, while others work from the office.

- What would it take to make hybrid working successful?
- What measures can be put in place to help reduce these risks?

Task 2: Supporting vulnerable residents

There has been a surge of Covid-19 cases in your borough and the press are covering new cases everyday. You've been informed that your borough is supporting the NHS's roll-out of the new Test & Trace app, and are considering developing a service to complement this.

- Consider what we need in place to ensure that residents comply with advice from Public Health professionals if they test positive.

Task 3: Promoting inclusion

The Mayor of London has been approached by telecommunication and technology companies who wish to support London's efforts to strategically bridge the digital divide.

- What residents are most at need?
- How do we know what's been done and build on that?
- What more can we do and how?

Hints and Tips

- **Check out** the AWS website for list of services
- Are there **case studies** that offer a similar solution?
- **Consider** how easy your solution will be to use
- **Present** your solution any way you want
- Have fun!

Team presentations

Apprenticeship Panel

Nicola Drury, Amazon UK Apprenticeship Manager

Tom Sheehy, Amazon SDE Apprentice

Emma O'Reilly, Hackney Apprentice

Oli Wheatley, Amazon SDE Apprentice

Fernanda Bisinoto, Amazon SDE Apprentice

AWS Training – Free Essential Days for all attendees

AWS Technical Essentials

- 19-October
- 02-November
- 16-November
- 30-November

AWS Cloud Practitioner Essentials

- 26-October
- 09-November
- 23-November

Thank you!
